IN CLOVERPORT

Every Claim Is Backed by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of Cloverport, what can it be?

Price Graham, Railroad St., Cloverport, Ky., says: "I can recommend Doan's Kidney Pills as a remedy that lives up to representations. For four years I suffered from disordered kidneys and the kidney secretions were too frequent in passage, obliging me to arise several times during the night. Whenever I caught cold, it was sure to settle in my kidneys and greatly aggravate my trouble. My back ached severely and when I stooped, I was seized by sharp twinges through my loins. The ache in my back at night greatly disturbed my rest and in the morning, I arose feeling lame and sore. I was very nervous, the slightest work tired me, and I often felt dull and languid. Doan's Kidney Pills, procured at Fisher's Drug Store, relieved me in a short time and it required the contents of but four boxes to effect a complete cure. I can state that this cure has proven to be a permanent one and it therefore gives me pleasure to recommend Doan's Kidney Pills to others afflicted in a similar manner."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HOW OLD IS YOUR BABY?

If she is two years old and you save two dollars a week for him, he will have more than A THOUSAND DOLLARS when he is just ten years of age. Think of it! Your little girl needs a bank account all her own. She is entitled to it, at least, 50c a week which means a neat sum when she will have finished High School. Bank accounts for the children show forethought of the parents. Teach your child to save as well as to earn. Saving money is the hardest lesson to learn and is easier to master in early childhood.

Music Kills Men Young.

Painting and sculpture are conducive to long life. Yet music kills men young. Schubert, with all his wealth of song, died at thirty-one; Mozart, who danced and laughed his melodies into being, died at thirty-five, the same age as Bellini; Bizet, the composer of "Carmen," died, like Purcell, at thirty-seven; Mendelssohn survived to thirty-eight; Chopin, who loved life so well, had done with it at thirty-nine, while Weber expired at the age of forty and Schubmann at forty-six. But Verdi lived and flourished as a nonagenarian.—London Standard.

CLEAN AND OIL

THE FARM HARNESS

Neglect In This Matter Results

In Serious Loss.

If any farmer will stand at a large milk receiving depot or other point where farmers' teams assemble he will probably be struck to note how few of the horses have clean, well kept harness. The harness in many cases looks as if it had never been cleaned for months. Considering the rise in the prices of all good harness and the cheapness of good harness composition and oil, it is a good investment to buy a small stock of these preparations and apply to the harness once a week.

A single set of harness can be oiled over with a brush in half an hour. It is not necessary to open up all the buckles every time as the oil can be well worked in with the brush. By doing this the harness is always in a soft, pliable condition and can be easily altered for different horses in a few minutes instead of having to wrestle with dry, hard straps in buckles and having the leather cracking in many places. By going over the harness every week small repairs can be detected and made before they go too far. Any man who uses a knife to make a hole in harness should be made to buy a new strap or keep the leather punch handy.—Rural New Yorker.

Making Sugar Cured Ham.

The following recipe for the making of sugar cured ham has been used for fifteen years by W. C. Hutchison, until recently president of the Missouri state board of agriculture: To 100 pounds of meat use 40 pounds of common salt, 10 pounds Orleans sugar, 4 pounds black pepper, 3 pounds saltpeter and half a pound of cayenne pepper. Mix thoroughly, then rub half the mixture on the meat, let it lay for two weeks, then rub on the remainder, after which let it lay for four weeks, then hang and smoke. Later wrap in newspapers, sack and hang in a cool, dark place.

Avoid Musty Grain.

There is no economy in feeding musty grain of any kind to the chickens, even if it can be had for a quarter of the price of good grain. The fowls will eat it if other food is withheld, but it is not good for them.
